EDUCATION

B.Tech in Computer Science & Information Technology

KIET Group of Institutions, Ghaziabad

2023 – 2027

CGPA: 7.4/ 10

Intermediate (12th)

BSEB Board | Percentage: 70.6%

2022

High School (10th)

BSEB Board | Percentage: 73.4%

2020

PROJECTS

• CodeNest Learning Platform (Full-Stack Development Project) (November 2025 - Present)

Software Development Project

- Developed a full-stack web platform to provide an organized learning environment for programming and coding practice.
- Implemented secure user authentication and authorization using JWT-based login and registration system.
- Designed modules for course dashboard, code editor, and progress tracking to enhance user learning experience.
- Built RESTful APIs and structured MongoDB database for efficient data storage and retrieval.
- Integrated AI-based study mentor using local LLM APIs to assist users in solving programming doubts.
- Focused on improving accessibility, user interaction, and performance of the application.

• Room Rental Finder (September 2025)

Software Development Project

- Developed a web application to help students locate nearby rental rooms in a convenient and organized manner.
- Designed interactive user interface using React.js to display room listings and availability details.
- Integrated location-based APIs to provide nearby accommodations and improve search accuracy.
- Implemented filtering and viewing features to simplify room selection process for users.
- Focused on improving accessibility and reducing time required to manually search for rental housing.
- Tech Stack: React.js, JavaScript, HTML, CSS, REST APIs

• Splitwise Expense Manager (November 2025)

Software Development Project

- Developed a web application to manage and split shared expenses among multiple users efficiently
- Implemented features for adding expenses, tracking balances, and calculating settlements automatically.
- Used database storage to maintain user accounts and expense records securely.
- Tech Stack: java, OOP, File Handling, Collections Framework

SKILLS

- Languages: Java (Proficient)
- Core Skills: Data Structures and Algorithms (DSA), Problem Solving
- Basic Web Technologies: HTML, CSS, JavaScript
- Tools: Git, GitHub, Excel

CERTIFICATIONS

- | | |
|--|---------------|
| • AWS Certified Cloud Practitioner – Amazon Web Services | February 2026 |
| • DSA with Java (APNA COLLEGE) | October 2025 |
| • MongoDB Developer (NoSQL) – Wingspan | October 2025 |
| • Cybersecurity Foundation – Palo Alto | June 2025 |
| • Artificial Intelligence – Infosys Springboard | June 2025 |

ACHIEVEMENTS

- Solved 100+ Data Structures & Algorithms problems on LeetCode
- HackerRank Skill Certifications: Problem Solving, Java — 2025
